

RADIO STATION A510

DESICCATION

NOTE:- This Issue 2, which has been revised throughout, supersedes and cancels Issue 1, 27 Nov 59, all copies of which will be destroyed.

1. Early stocks of silica gel packs for the A510 were exhausted on receipt from store due to unsatisfactory packaging.
2. The current item is:-
Cat No 6850-66-013-6791, DESICCANT, activated, silica gel, 8 gm pack.
This item has been packed in an improved moisture proof bag and must not be removed till immediately prior to sitting the desiccator into the set. The set should be then sealed at once.
3. Initial stocks of this item are labelled -
Z1/TSE (W) 8-727 PACKS, silica gel
4. Re-activation of exhausted desiccators in accordance with A 761 Issue 2 will only be carried out if new desiccators are temporarily unavailable.
